14. COMMUNITY HUBS

As a whole, Halfmoon Bay remains a rural community characterized primarily by a low density residential settlement pattern; however, there is a desire to create focal points within neighbourhoods where multiple land uses converge to form community centres or hubs.

The diversity of land uses encourages social interaction, creates gathering places and supports local commercial activity. Because Halfmoon Bay is a diverse area with existing neighbourhoods that function somewhat independently, three community hubs have been identified in this OCP: one in Welcome Woods, one in Halfmoon Bay and one in Secret Cove. The Community Hubs are shown on Map 1.

A community hub is a focal point - a neighbourhood centre where people can come together to socialise, to eat, to purchase the basic necessities or provide a service to the community, all within the scale of a rural community. A hub may also highlight the natural beauty of the neighbourhood with access to the ocean and forest. A hub contributes to the sense of community and focuses growth in identified areas while maintaining the rural community character. The community hub designation is not intended to re-designate a residential neighbourhood into a commercial centre, it is intended on considering a potential for mixed uses that are compatible within a neighbourhood scale. There are three neighbourhood hubs identified in the OCP, each with their own set of possibilities and potential outcomes. Community consultation from the surrounding neighbourhood will form a significant component of the evolution of land uses within these areas.

As we move toward 2031, existing hub areas will continue to evolve into focal points of the community. The following is a list of suggested mixed land uses suitable within the hubs:

| | |
|-------------------------------------|--|
| Restaurants; | Community halls; |
| Coffee shops; | Parks; |
| Pubs; | Youth drop in centres; |
| Stores; | Community gardens and small scale farming; |
| Cultural and art venues and events; | Live-work dwellings; |
| Gathering places; | Multi-Family dwellings; |
| Village centre; | Affordable Housing; and |
| Commercial amenities; | Tourist Accommodations. |

Additional uses may be considered in the future, provided there is due public process and the proposed uses are deemed to fit with the community character and suitably meet technical requirements such as parking and septic treatment. Properties within the three community hubs will retain their existing zoning, until such time that specific proposals are made to the SCR D and presented to the community through a rezoning process. Rezoning will ensure community consultation, including an opportunity for Halfmoon Bay residents to contribute toward the design, layout and future of the neighbourhood hubs.

The following chapters: Neighbourhood Commercial, Mixed Multi-Family, and Tourist Commercial provide additional detail on permitted uses within the Community Hub designation.
